THE IDEA

What the partner program is

KEREK grows through the people who spread it. You invite businesses and users — and you get a share of the subscription payments they make.

- Personal link and QR — in the app, in the “Partnership” section.
- The reward comes from actual subscription payments by businesses in your network.
- Income not only from direct invitees, but from your whole network, deep down.
- Free to join, no fees. It is not a pyramid.

HOW IT WORKS

Four simple steps

1

Get your link

Install KEREK, open “Partnership” — your link and QR code are there.

2

Invite

Share the link with businesses and people — whoever installs via it is attached to you.

3

They use it

Businesses reply to requests and take the “Business plan” subscription.

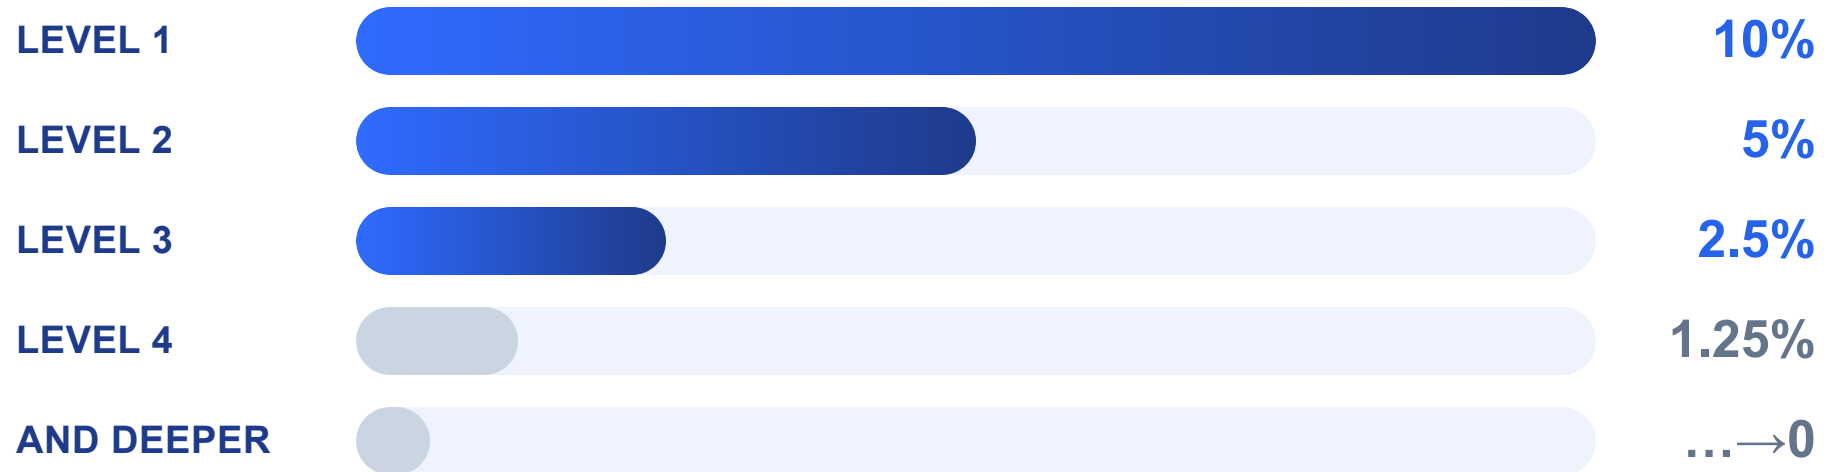

4

You earn

Every payment they make accrues a reward to you — across your whole network.

REWARD

10% from level 1 and deeper down

Each deeper level is half of the one above, until the amount reaches zero.

EXAMPLE

How the reward is calculated

A business in your network pays for a monthly “Business plan” subscription — 690 ₺.

If they are on your level 1	69 ₺
On level 2	34 ₺
On level 3	17 ₺
On level 4	8 ₺

One payment rewards several partners up the network at once. The more active the network, the higher the income.

Income from your whole network

Multi-level network

You invite businesses and partners. Your partners invite theirs — and so on. You earn across every level, deep down.

Transparent and fair

- The whole network and the reward are visible in the app.
- Members' data is limited, phone numbers are masked.
- Only from real payments for real services.

PAYOUTS
